## **PRESS RELEASE**

*23<sup>rd</sup> June, 2017*

### **Pantheon Ranked First in Gender Diversity**

We are very proud indeed to have had our gender commitment recognized in this year's *Counting Every Woman* survey, conducted and published by think-tank, New Financial. This well regarded annual survey measures female representation on boards and executive committees in European Capital Markets and covered 240 companies and institutions across 12 different sectors.

Pantheon is ranked first in the Private Equity sector with 31% female representation on our Executive Committee against a sector average of 10%. A particularly pleasing trend is that the private equity industry is making great strides in increasing its representation of senior women with a 108% improvement since 2014. The Survey notes that if our industry maintains this rate of improvement, it could be one of only five sectors to meet the Davies Review voluntary target of 33% female representation on boards by 2020.
